In re Application of  
Paul Brown  
Serial No. 10/618,629  
Filed: 7/15/03  
For: TAILORED INTERCONNECT MODULE

Group Art Unit 2833  
Examiner Alexander Gilman

**SUPPLEMENTAL DECLARATION**

Paul Brown, whose application for Letters Patent for an improvement in Tailored Interconnect Module, Serial No. 10/618,629, was filed in the United States Patent and Trademark Office on July 15, 2003, declares that the subject matter of any claim and/or specification amendment filed herein and disclosed in said application was part of his invention, was invented before he filed his original application, above identified, for such invention; that he acknowledges his duty to disclose information of which he is aware which is material to the examination of said application; that he does not know and does not believe that the same was ever known or used before his invention thereof, or patented or described in any printed publication in any country before his invention thereof, or more than one year before his application or in public use or on sale in the United States more than one year before the date of his application, that said invention has not been patented or the subject of any inventor's certificate in any foreign country before the date of his application in the United States and has not been abandoned.

The undersigned petitioner, Paul Brown, declares further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
